Simon and Molly Plus Hester Lisa Jahn-Clough 2001-08-24 Simon and Molly were the best of friends, just the two of them. Until Hester moved in. Hester doesn't want to ride the two-wheeler, like they always do; she wants to make paper airplanes instead. And the toast Simon makes for her is too boring; she wants to add cinnamon sugar. Molly happily goes along with all of her changes, but Simon liked things the way they were before Hester moved in. With Hester around, will Molly still want to be his friend? Lisa Jahn-Clough once again captures the complexities of friendship. She deftly explores the children's feelings of insecurity and exclusion, revealing both the hidden motives behind their actions and the keys to their reconciliation. Readers will discover that with a little understanding and compromise, while two is definitely better than one, three can be even more fun!

March: Book One John Lewis 2013-08-12 Congressman John Lewis (GA-5) is an American icon, one of the key figures of the civil rights movement. His commitment to justice and nonviolence

has taken him from an Alabama sharecropper's farm to the halls of Congress, from a segregated schoolroom to the 1963 March on Washington, and from receiving beatings from state troopers to receiving the Medal of Freedom from the first African-American president. Now, to share his remarkable story with new generations, Lewis presents *March*, a graphic novel trilogy, in collaboration with co-writer Andrew Aydin and New York Times best-selling artist Nate Powell (winner of the Eisner Award and LA Times Book Prize finalist for *Swallow Me Whole*). *March* is a vivid first-hand account of John Lewis' lifelong struggle for civil and human rights, meditating in the modern age on the distance traveled since the days of Jim Crow and segregation. Rooted in Lewis' personal story, it also reflects on the highs and lows of the broader civil rights movement. Book One spans John Lewis' youth in rural Alabama, his life-changing meeting with Martin Luther King, Jr., the birth of the Nashville Student Movement, and their battle to tear down segregation through nonviolent lunch counter sit-ins, building to a stunning climax on the steps of City Hall.

Many years ago, John Lewis and other student activists drew inspiration from the 1958 comic book *Martin Luther King and the Montgomery Story*. Now, his own comics bring those days to life for a new audience, testifying to a movement whose echoes will be heard for generations.

The New Geography of Jobs Enrico Moretti 2012 A rising young economist at Berkeley makes correlations between success and geography, explaining how such rising centers of innovation as San Francisco, Boston and Austin are likely to offer influential opportunities and shape the national and global economies in positive or detrimental ways.

King Leopold's Ghost Adam Hochschild 2019-05-14 With an introduction by award-winning novelist Barbara Kingsolver In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. . While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. Winner of the Duff Cooper Prize in 1999, *King Leopold's Ghost* is the true and haunting account of this man's brutal regime and its lasting effect on a ruined nation. It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity.

For educators to meet the challenging learning needs of students they must have a clear road map to follow throughout the school year. Rigorous Curriculum Design presents a carefully sequenced, hands-on model that curriculum designers and educators in every school system can follow to create a progression of units of study that keeps all areas tightly focused and connected.

The Art of Classic Planning Nir Haim Buras 2020-01-28 "An accomplished architect and urbanist goes back to the roots of what makes cities attractive and livable, demonstrating how we can restore function and beauty to our urban spaces for the long term. Nearly everything we treasure in the world's most beautiful cities was built over a century ago. Cities like Prague, Paris, and Lisbon draw millions of visitors from around the world because of their exquisite architecture, walkable neighborhoods, and human scale. Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years--not because of traffic, population growth, or other practical hurdles, but because of ill-considered theories emerging from Modernism and reactions to it. The errors of urban design over the last century are too great not to question. The solutions being offered today--sustainability, walkability, smart and green technologies--hint at what has been lost and what may be regained, but they remain piecemeal and superficial. In The Art of Classic Planning, architect and planner Nir Haim Buras documents and extends the time-tested and holistic practices that held sway before the reign of Modernism. With hundreds of full-color illustrations and photographs that will captivate architects, planners, administrators, and developers, The Art of Classic Planning restores and revitalizes the foundations of urban planning. Inspired by venerable cities like

Kyoto, Vienna, and Venice, and by the great successes of L'Enfant's Washington, Haussmann's Paris, and Burnham's Chicago, Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world. The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities."

Making Content Comprehensible for English Learners Jana Echevarria 2004 Like no other text on the market, "Making Content Comprehensible" presents an empirically validated model of sheltered instruction. This text contains the Sheltered Instruction Observation Protocol (SIOP) model, which provides school administrators, staff developers, teachers, teacher candidates, university faculty, and field experience supervisors with a tool for "observing and quantifying" a teacher's implementation of quality sheltered instruction. New to This Edition A new, additional chapter addresses the issue of English learners who are struggling readers and/or students with disabilities by including detailed information about learning disabilities and delayed development in reading (Ch. 10). Revised vignettes present teaching scenarios where three teachers teaching the same grade level and content attempt to include the focal SIOP indicators, with varying degrees of success. Complete lesson descriptors allow readers to score the three teaching scenarios and help readers develop a degree of inter-rater reliability. New pedagogy! Each chapter contains: A graphic organizer that provides an overview of the chapter. "Background Sections" that include descriptions of the 8 sections and 30 indicators of the SIOP to help readers plan and prepare effective sheltered lessons. "Background Discussion Questions" appropriate for portfolio development in pre-service and graduate classes, for professional development workshops, or for reflection. The new, larger trim size facilitates using in the classroom the SIOP long and short versions and the lesson plan forms and rating vignettes. Includes both the full SIOP and an abbreviated version for the reader's use. Two different SIOP

lesson plan formats that can be used for planning and preparation, depending on your needs. An Appendix contains the results of studies that demonstrate that English learners whose teachers used the SIOP model outperformed similar students whose teachers did not implement the model. "Making Content Comprehensible "is very practical and right on target for strategies in the field of ELLs." Professor Gerald McCain, "Southern Oregon University" "What clearly distinguishes Making Content Comprehensible "from others in the field is that it provides an easy-to-use, powerful, field-tested protocol for effective lesson planning, delivery and assessment." Professor Karen L. Newman, "Indiana University" "The strength of Making Content Comprehensible is the clear picture it provides of instruction and the teaching scenarios. The discussion of the teaching techniques and evaluation of each of the three teachers provides invaluable examples for the student." Professor Judith B. O'Loughlin, "New Jersey City University" Author Bios: Dr. Jana Echevarria is Chair of the Department of Educational Psychology, Administration and Counseling at California State University, Long Beach. Formerly she was a professor of Special Education. Her professional experience includes elementary and secondary teaching in special education, ESL and bilingual programs. The Things They Carried Tim O'Brien 2009-10-13 A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, The Things They Carried is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. The Things They Carried depicts the men of Alpha Company: Jimmy

Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Writing Effective Lesson Plans Mark Ryan 2011-11-21 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Developed by two educators with experience in both elementary and secondary classrooms, *Writing Effective Lesson Plans* details a unique a step-by-step procedure designed to streamline the process of lesson planning and make

teaching smoother and more efficient. Coined the "Five-Star Lesson Plan" by the authors, this model consists of five classic components: lesson description, goals and objectives, materials and tools, procedures, and reflective assessment and evaluation. This workbook guides beginning and experienced teachers through each step to create lesson plans that best meet the needs of every student. It also explores the inherent challenges to effective lesson planning, such as time efficiency, knowledge construction, skill development, involving the students' families, and implementing your plan. With its mix of concise theory and hands-on activities, this book is a one-stop resource encouraging a deep and thoughtful approach to a skill that is often not sufficiently developed in teacher preparation programs.
