Writing the Nation Amy Berke 2015-12-31 Writing the Nation: A Concise Introduction to American Literature 1865 to Present, is designed to continue the preservation of famous American literary works in the minds of college students.

Introduction to Latin America Peadar Kirby
2003-05-27 Introduction to Latin America provides a

completely new introduction to the political, social and economic forces shaping this essential region of undergraduate study today. It is the first textbook to place Latin America within a genuinely global context and introduce the debates and impact of globalization, neoliberalism, democratization, and the environment.

American History: A Very Short Introduction Paul S. Boyer 2012-08-16 In a miracle of concision, Paul S. Boyer

provides a wide-ranging and authoritative history of America, capturing in a compact space the full story of our nation. Ranging from the earliest Native American settlers to the presidency of Barack Obama, this Very Short Introduction offers an illuminating account of politics, diplomacy, and war as well as the full spectrum of social, cultural, and scientific developments that shaped our country. Here is a masterful picture of Americas achievements and failures, large-scale socio-historical forces, and pivotal events. Boyer sheds light on the colonial era, the Revolution and the birth of the new nation; slavery and the Civil War; Reconstruction and the Gilded Age; the Progressive era, the Roaring Twenties and the Great Depression; the two world wars and the Cold War that followed; right up to the tragedy of 9/11, the wars in Iraq and Afghanistan, and the epoch-making election of Barack Obama. Certain broad trends shape much of the narrative--

immigration, urbanization, slavery, continental expansion, the global projection of U.S. power, the centrality of religion, the progression from an agrarian to an industrial to a post-industrial economic order. Yet in underscoring such large themes, Boyer also highlights the diversity of the American experience, the importance of individual actors, and the crucial role of race, ethnicity, gender, and social class in shaping the contours of specific groups within the nations larger tapestry. And along the way, he touches upon the cultural milestones of American history, from Tom Paines The Crisis to Allen Ginsbergs Howl. American History: A Very Short Introduction is a panoramic history of the United States, one that covers virtually every topic of importance--and yet can be read in a single day.

Housing in America Marijoan Bull 2018-03-22 Housing is a fundamental need and universal part of human living that shapes our lives in profound ways that go far beyond basic sheltering. Where

we live can determine our self-image, social status, health and safety, quality of public services, access to jobs, and transportation options. But the reality for many in America is that housing choices are constrained: costs are unaffordable, discriminatory practices remain, and physical features do not align with needs. As a society, we recognize the significant role housing plays in our overall quality of life and the stability of our communities. We have made a national commitment to decent housing for all yet this promise remains unrealized. Housing in America provides a broad overview of the field of housing, with the objective of fostering an informed and engaged citizenry. The evolution of housing norms and policy is explored in a historical context while underscoring the human and cultural dimensions of housing program choices. Specific topics covered include: why housing matters; housing and culture; housing frameworks and political ideologies; housing and

opportunities; housing and the economy; housing discrimination; and housing affordability. Readers will gain an understanding of the basic debates within the field of housing, consider the motivations and performance of various interventions, and critically examine persistent patterns of racial and class inequality. With an exploration of theoretical frameworks, short case studies, reflective exercises, and strong visuals, this introductory text explores improving housing choices in America.

An Introduction to Native North America -- Pearson eText Mark

Q. Sutton 2015-08-26 An Introduction to Native North America provides a basic introduction to the native peoples of North America, including both the United States and Canada. It covers the history of research, basic prehistory, the European invasion and the impact of Europeans on Native cultures. Additionally, much of the book is written from the perspective of the ethnographic present,

and the various cultures are described as they were at the specific times noted in the text. Teaching and Learning Experiences: Improve Critical Thinking - An Introduction to Native North America provides internet resources for students to supplement reading material, and contains an extensive bibliography to aid in their research. Engage Students - An Introduction to Native North America highlights important individuals in "VIP Profile" mini-biographies, and contains "Sidelights" throughout the text which provides short explanations of interesting aspects of native culture. Support Instructors - Teaching your course just got easier! You can create a Customized Text or use our Instructor's Manual, Electronic "MyTest" Test Bank or PowerPoint Presentation Slides. Plus, An Introduction to Native North America's organization was designed to be used in conjunction with the Handbook of North American Indians, published by the Smithsonian Institution.

The Cambridge Companion to Modern American Culture

C. W. E. Bigsby 2006-10-12 The Cambridge Companion to Modern American Culture offers a comprehensive, authoritative and accessible overview of the cultural themes and intellectual issues that drive the dominant culture of the twentieth century. The essays explore the social, political and economic forces that have made America what it is today. Varied, extensive and challenging, this Companion is essential reading for students and teachers of American studies around the world. It is the most accessible and useful introduction available to an exciting ...

American Intellectual History: A Very Short Introduction

Jennifer Ratner-Rosenhagen 2021-09-03 Long before the United States was a nation, it was a set of ideas, projected onto the New World by European explorers with centuries of belief and thought in tow. From this foundation of expectation and experience, America and American thought grew in turn, enriched by the

bounties of the Enlightenment, the philosophies of liberty and individuality, the tenets of religion, and the doctrines of republicanism and democracy. Crucial to this development were the thinkers who nurtured it, from Thomas Jefferson to Ralph Waldo Emerson, W.E.B. Du Bois to Jane Addams, and Betty Friedan to Richard Rorty. This addition to Oxford's Very Short Introductions series traces how Americans have addressed the issues and events of their time and place, whether it is the Civil War, the Great Depression, or the culture wars of today. Spanning a variety of disciplines, from religion, philosophy, and political thought, to cultural criticism, social theory, and the arts, Jennifer Ratner-Rosenhagen shows how ideas have been major forces in American history, driving movements such as transcendentalism, Social Darwinism, conservatism, and postmodernism. In engaging and accessible prose, this introduction to American thought considers how notions

about freedom and belonging, the market and morality - and even truth - have commanded generations of Americans and been the cause of fierce debate.

The Puritan in Holland, England, and America Douglas Campbell 1892

An Introduction to Native North America Mark Q. Sutton 2000

An Introduction to Native North America provides a basic introduction to the Native Peoples of North America, including both Eskimos and Indians. Beginning with a discussion of the geography of North America, this excellent text delves into the history of research, basic prehistory, the European invasion, and the impact of Europeans on Native cultures. A final chapter covers contemporary Native Americans, including issues of religion, health, and politics. Much of the book is also written from the perspective of the ethnographic present, and the various cultures are described as they were at the specific times noted in the text.

The American West Stephen

Aron 2015 Familiar figures - missionaries, explorers, trappers, traders, prospectors, gunfighters, cowboys, and Indians - appear in these pages. So do renowned individuals such as Daniel Boone, Thomas Jefferson, Teddy Roosevelt, and John Wayne. But their stories contribute to a history of the American West that is longer, larger, and more complicated than we were once told.

A New Introduction to American Studies Howard Temperley 2014-07-21 A New Introduction to American Studies provides a coherent portrait of American history, literature, politics, culture and society, and also deals with some of the central themes and preoccupations of American life. It will provoke students into thinking about what it actually means to study a culture. Ideals such as the commitment to liberty, equality and material progress are fully examined and new light is shed on the sometimes contradictory ways in which these ideals have informed the nation's history and culture. For introductory undergraduate courses in

American Studies, American History and American Literature.

The American South Charles Reagan Wilson 2020-12-01 The American South is a distinctive place with a dramatic history, and has significance beyond its regional context in the twenty first century. The American South: A Very Short Introduction explores the history of the South as a cultural crossroads, a meeting place between western Europe and West Africa. The South's beginnings illuminate the expansion of Europe into the New World, creating a colonial slave society that distinguished it from other parts of the United States but fostered commonalities with other colonial societies. The Civil War and civil rights movement transformed the South in differing ways and remain a part of a vibrant and contested public memory. More recently, the South's pronounced traditionalism in customs and values was in tension with the forces of modernization that slowly forced change in the

twentieth century. Southerners' creative responses to these experiences have made the American South well known around the world in literature, film, music, and cuisine. Charles Reagan Wilson argues for the significance of creativity in the South, emerging from the diversity of peoples, cultures, and experiences that the regional context fostered. The South has now become the new center of immigration, adding to the complexity of the region's cultural, social, economic, and political life. In this book, the burdens and tragedies of southern history are placed beside the creative achievements that have come out of the region, producing a portrait of a complex American place.

The Routledge Introduction to American Drama

Paul Thifault 2022-06-29 This volume provides an accessible and engaging guide to the study of American dramatic literature. Designed to support students in reading, discussing, and writing about commonly assigned American plays, this

text offers timely resources to think critically and originally about key moments on the American stage. Combining comprehensive coverage of the core plays from the post-Revolutionary era to the present, each chapter includes: historical and cultural context of each of the plays and their distinctive literary features clear introductions to the ongoing critical debates they have provoked collaborative prompts for classroom or online discussion annotated bibliographies for further research With its accessible prose style and clear structure, this introduction spotlights specific plays while encouraging students to contemplate timely questions of American identity across its selected span of US theatrical history.

America Kambiz GhaneaBassiri 2010-04-19 Traces the history of Muslims in the US and their waves of immigration and conversion across five centuries.

American Cultural Studies

Neil C. Campbell 2005-08-12 Drawing on literature, art, film theatre, music and much more, American Cultural Studies is an interdisciplinary introduction to American culture for those taking American Studies. This textbook: * introduces the full range and variety of American culture including issues of race, gender and youth * provides a truly interdisciplinary methodology * suggests and discusses a variety of approaches to study * highlights American distinctiveness * draws on literature, art, film, theatre,

architecture, music and more * challenges orthodox paradigms of American Studies. This is a fast-expanding subject area, and Campbell and Kean's book will certainly be a staple part of any cultural studies student's reading diet.

Colonial America

Alan Taylor 2013 In this Very Short Introduction, Alan Taylor presents the current scholarly understanding of colonial America to a broader audience. He focuses on the transatlantic and a transcontinental perspective, examining the interplay of Europe, Africa, and the Americas through the flows of goods, people, plants, animals, capital, and ideas.

American Political History: A Very Short Introduction Donald T. Critchlow 2015-01-14 The Founding Fathers who drafted the United States Constitution in 1787 distrusted political parties, popular democracy, centralized government, and a strong executive office. Yet the country's national politics have historically included all those features. In American Political History: A Very Short

*Downloaded from
radiofreepirate.org on
August 8, 2022 by guest*

Introduction, Donald Critchlow takes on this contradiction between original theory and actual practice. This brief, accessible book explores the nature of the two-party system, key turning points in American political history, representative presidential and congressional elections, struggles to expand the electorate, and critical social protest and third-party movements. The volume emphasizes the continuity of a liberal tradition challenged by partisan divide, war, and periodic economic turmoil. *American Political History: A Very Short Introduction* explores the emergence of a democratic political culture within a republican form of government, showing the mobilization and extension of the mass electorate over the lifespan of the country. In a nation characterized by great racial, ethnic, and religious diversity, American democracy has proven extraordinarily durable. Individual parties have risen and fallen, but the dominance of the two-party system persists. Fierce debates

over the meaning of the U.S. Constitution have created profound divisions within the parties and among voters, but a belief in the importance of constitutional order persists among political leaders and voters. Americans have been deeply divided about the extent of federal power, slavery, the meaning of citizenship, immigration policy, civil rights, and a range of economic, financial, and social policies. New immigrants, racial minorities, and women have joined the electorate and the debates. But American political history, with its deep social divisions, bellicose rhetoric, and antagonistic partisanship provides valuable lessons about the meaning and viability of democracy in the early 21st century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. Latin America in the World

Antonia Garcia-Rodriguez

2020-04-17 From the Foundations in Global Studies series, this text offers students a fresh, comprehensive, multidisciplinary entry point to Latin America. After a brief introduction to the study of the region, the early chapters of the book survey the essentials of Latin American history; important historical narratives; and the region's languages, religions, and global connections. Students are guided through the material with relevant maps, resource boxes, and text boxes that support and guide further independent exploration of the

topics at hand. The second half of the book features interdisciplinary case studies, each of which focuses on a specific country or subregion and a particular issue. Each chapter gives a flavor for the cultural distinctiveness of the particular country yet also draws attention to global linkages. Readers will come away from this book with an understanding of the larger historical, political, and cultural frameworks that shaped Latin America as we know it today, and of current issues that have relevance in Latin America and beyond.

An Introduction to the History of Chess in America

Seymour Shapiro 1942

Was America Founded as a Christian Nation?

John Fea 2011-02-16 Fea offers an even-handed primer on whether America was founded to be a Christian nation, as many

evangelicals assert, or a secular state, as others contend. He approaches the title's question from a historical perspective, helping readers see past the emotional rhetoric of today to the recorded facts of our past. Readers on both sides of the issues will appreciate that this book occupies a middle ground, noting the good points and the less-nuanced arguments of both sides and leading us always back to the primary sources that our shared American history comprises.

The Myths That Made America

Heike Paul 2014-08-31

This essential introduction to American studies examines the core foundational myths upon which the nation is based and which still determine discussions of US-American identities today. These myths include the myth of »discovery,« the Pocahontas myth, the myth of the Promised Land, the myth of the Founding Fathers, the melting pot myth, the myth of the West, and the myth of the self-made man. The chapters provide extended analyses of each of these

*Downloaded from
radiofreepirate.org on

myths, using examples from popular culture, literature, memorial culture, school books, and every-day life. Including visual material as well as study questions, this book will be of interest to any student of American studies and will foster an understanding of the United States of America as an imagined community by analyzing the foundational role of myths in the process of nation building.

American Foreign Relations

Andrew Preston 2019-04-01 For better or worse--be it militarily, politically, economically, technologically, or culturally--Americans have had a profound role in shaping the wider world beyond them. The United States has been a savior to some, a curse to others, but either way such views are often based on a caricature of American actions and intentions. *American Foreign Relations*, then, is a subject of immense global importance that provokes strong emotions and much debate, but often based on deep misunderstanding. This Very

Short Introduction analyzes the key episodes, themes, and individuals in the history of American foreign relations. While discussing diplomacy and the periods of war that have shaped national and international history, it also addresses such topics as industrialization, globalization, imperialism, and immigration. Covering the Revolution through the War on Terror, it examines the connections between domestic politics and foreign affairs, as well as the importance of ideals and values. Sharply written and highly readable, *American Foreign Relations* offers a clear-eyed narrative of America's role in the world and how it has evolved over time. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make

interesting and challenging topics highly readable.

U.S. History P. Scott Corbett 2017-12-19 Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

American Business History: a Very Short Introduction Walter A. Friedman 2020-04-15 By the early twentieth century, it became common to describe

the United States as a "business civilization." President Coolidge in 1925 said, "The chief business of the American people is business." More recently, historian Sven Beckert characterized Henry Ford's massive manufactory as the embodiment of America: "While Athens had its Parthenon and Rome its Colosseum, the United States had its River Rouge Factory in Detroit..." How did business come to assume such power and cultural centrality in America? This volume explores the variety of business enterprise in the United States and analyzes its presence in the country's economy, its evolution over time, and its meaning in society. It introduces readers to formative business leaders (including Elbert Gary, Harlow Curtice, and Mary Kay Ash), leading firms (Mellon Bank, National Cash Register, Xerox), and fiction about business people (The Octopus, Babbitt, The Man in the Grey Flannel Suit). It also discusses Alfred Chandler, Joseph Schumpeter, Mira

Downloaded from
radiofreepirate.org on
August 8, 2022 by guest

Wilkins, and others who made significant contributions to understanding of America's business history. This VSI pursues its three central themes - the evolution, scale, and culture of American business - in a chronological framework stretching from the American Revolution to today. The first theme is evolution: How has U.S. business evolved over time? How have American companies competed with one another and with foreign firms? Why have ideas about strategy and management changed? Why did business people in the mid-twentieth century celebrate an "organizational" culture promising long-term employment in the same company, while a few decades later entrepreneurship was prized? Second is scale: Why did business assume such enormous scale in the United States? Was the rise of gigantic corporations due to the industriousness of its population, or natural resources, or government policies? And third, culture: What are the characteristics of

a "business civilization"? How have opinions on the meaning of business changed? In the late nineteenth century, Andrew Carnegie believed that America's numerous enterprises represented an exuberant "triumph of democracy." After World War II, however, sociologist William H. Whyte saw business culture as stultifying, and historian Richard Hofstadter wrote, "Once great men created fortunes; today a great system creates fortunate men." How did changes in the nature of business affect popular views? Walter A. Friedman provides the long view of these important developments.

The Oxford Handbook of American Immigration and Ethnicity Ronald H. Bayor
2016 Scholarship on immigration to America is a coin with two sides: how did America change immigrants, and how did they change America? Were the immigrants uprooted from their ancestral homes, leaving all behind, or were they transplanted, bringing many aspects of their

*Downloaded from
radiofreepirate.org on
August 8, 2022 by guest*

culture with them?
Although historians agree with the transplantation concept, the notion of the melting pot, which suggests a complete loss of the immigrant culture, persists in the public mind. The Oxford Handbook of American Immigration and Ethnicity explores how Americans think of themselves and how science, religion, period of migration, gender, education, politics, and occupational mobility shape both this image and American life. Since the 1965 Immigration Act opened the gates to newer groups, historical writing on immigration and ethnicity has evolved over the years to include numerous immigrant sources and to provide trenchant analyses of American immigration and ethnicity. For the first time, this handbook brings together thirty leading scholars in the field to make sense of all the themes, methodologies, and trends that characterize the debate on American immigration. They examine a wide-range of topics, including pan-ethnicity, whiteness, intermarriage,

bilingualism, religion, museum ethnic displays, naturalization, regional mobility, census categorization, immigration legislation and its reception, ethnicity-related crime and gang formation. The Oxford Handbook of American Immigration and Ethnicity explores the idea of assimilation in a multicultural society showing how deeply pan-ethnicity changed American identity over the time.

North American Indians: A Very Short Introduction Theda Perdue 2010-08-10 When Europeans first arrived in North America, between five and eight million indigenous people were already living there. But how did they come to be here? What were their agricultural, spiritual, and hunting practices? How did their societies evolve and what challenges do they face today? Eminent historians Theda Perdue and Michael Green begin by describing how nomadic bands of hunter-gatherers followed the bison and woolly mammoth over the Bering land mass between Asia and what is now Alaska

Downloaded from
radiofreepirate.org on
August 8, 2022 by guest

between 25,000 and 15,000 years ago, settling throughout North America. They describe hunting practices among different tribes, how some made the gradual transition to more settled, agricultural ways of life, the role of kinship and cooperation in Native societies, their varied burial rites and spiritual practices, and many other features of Native American life. Throughout the book, Perdue and Green stress the great diversity of indigenous peoples in America, who spoke more than 400 different languages before the arrival of Europeans and whose ways of life varied according to the environments they settled in and adapted to so successfully. Most importantly, the authors stress how Native Americans have struggled to maintain their sovereignty--first with European powers and then with the United States--in order to retain their lands, govern themselves, support their people, and pursue practices that have made their lives meaningful. Going beyond the stereotypes that so often

distort our views of Native Americans, this Very Short Introduction offers a historically accurate, deeply engaging, and often inspiring account of the wide array of Native peoples in America. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

Hinduism in America Michael J. Altman 2022 "Hinduism in America: An Introduction is a concise introduction to the long history of religion in the encounter between America and India. It is not a book that will tell you what Hinduism is, rather it is an introduction to the variety of ways Hinduism has been represented, constructed, and practiced in the United States. Americans have been interested in the religions of India since the

colonial period and, by the late nineteenth century, the first Hindu teachers arrived in the United States. Throughout the twentieth century, interest in Hinduism and yoga grew, even as anti-Asian and anti-immigrant politics and policies in America intensified. When the Cold War led to changes in U.S. immigration policy in 1965, new immigrant communities arrived in the United States and built new Hindu institutions. Hinduism in America is an accessible introduction to these developments of Hinduism in the United States. Each chapter in Hinduism in America uses a key theoretical term in the study of religion to frame explore a variety of historical topics including: American missionary encounters with India representations of Hindu religions in American literature world religions and Hinduism vedanta yoga Hinduism in the American counterculture of the 1960s immigrant Hindu communities in the United States. Hinduism in America provides an overview of the multifaceted history of

Hinduism in America. Ideal for students and scholars approaching the topic for the first time, the book includes sections in each chapter that provide useful theoretical terms for understanding that multifaceted history"--
African American History
Joanne Turner-Sadler 2009
Every year more colleges and high schools are offering classes (and often making them required classes) in black history. Joanne Turner-Sadler provides a concise and probing treatment of 400 years of black history in America that can be used with age groups ranging from lower high school to college. In *African American History: An Introduction* the author touches on key figures and events that have shaped African American culture beginning with a look at Africa and its various civilizations and the migration of the African people to America. Some essential topics covered are: the struggle with slavery, the role African Americans played in America's wars (including the current war in Iraq), race riots

and unions, the NAACP, civil rights, and black power movements, the Harlem Renaissance, issues in education, the journey into the West, legal cases such as Plessy vs. Ferguson and Brown vs. Board of Education, African Americans as athletes, entertainers, and statesmen. This book is an indispensable addition to all library collections as well as a teaching tool for instructors. It is heavily illustrated (photos, maps, timelines) with useful end-of-the-chapter questions and activities for further study and includes a handy bibliography of suggested readings and an index. New in this edition is a section on the historic election of Barack Obama, the first African American president of the United States. Interesting connections Obama has to past presidents are explored as well. This edition also contains enhanced discussions of Colin Powell and Condoleezza Rice, and the historic positions both held.

American Cultural History: A Very Short Introduction Eric

Avila 2018-07-17 The iconic images of Uncle Sam and Marilyn Monroe, or the "fireside chats" of Franklin D. Roosevelt and the oratory of Martin Luther King, Jr.: these are the words, images, and sounds that populate American cultural history. From the Boston Tea Party to the Dodgers, from the blues to Andy Warhol, dime novels to Disneyland, the history of American culture tells us how previous generations of Americans have imagined themselves, their nation, and their relationship to the world and its peoples. This Very Short Introduction recounts the history of American culture and its creation by diverse social and ethnic groups. In doing so, it emphasizes the historic role of culture in relation to broader social, political, and economic developments. Across the lines of race, class, gender, and sexuality, as well as language, region, and religion, diverse Americans have forged a national culture with a global reach, inventing stories that have shaped a national identity and an American way of life.

American Immigration: a Very Short Introduction

David A. Gerber 2021-03-25
"The population of the United States has diverse sources: territorial acquisition through conquest and colonialism, the slave trade, and voluntary immigration, which has been the greatest instrument of population expansion and has been central to the transition in the nineteenth and twentieth centuries from a rural-agricultural to an urban-industrial society. Recognition of the need for labor to develop and expand economic activity has been central to policies and laws enabling mass immigration. Many Americans,

too, value the memory of immigrant ancestors, and are sentimentally inclined to immigrant strivings. Alongside the embrace of immigration has been the perception that immigration destabilizes social order, cultural coherence, job markets, and political alignments. In some observers that recognition has been animated by racist appraisals of various immigrant peoples and by nativism, a general dislike of people and things foreign to Americans. The century and a half of American nationhood has been characterized by both support for openness to immigration and embrace of a cosmopolitan formulation of American identity and for restrictions and assertions of belief in a core Anglo-American national character. The book traces three massive waves of immigration from the mid-nineteenth century to the present, and analyses the nature of immigration as a purposeful, structured activity, attitudes supporting or hostile to immigration, policies and laws regulating immigration,

*Downloaded from
