Fade Robert Cormier 2013-03-19 IT IS THE summer of 1938 when young Paul Moreaux discovers he can “fade.” First bewildered, then thrilled with the power of invisibility, Paul experiments. But his “gift” soon shows him shocking secrets and drives him toward a chilling act. “Imagine what might happen if Holden Caulfield stepped into H. G. Wells’ The Invisible Man, and you’ll have an idea how good Fade is. . . . I was absolutely riveted.”—Stephen King

The Play of Space Rush Rehm 2020-07-21 Is "space" a thing, a container, an abstraction, a metaphor, or a social construct? This much is certain: space is part and parcel of the theater, of what it is and how it works. In The Play of Space, noted classicist-director Rush Rehm offers a strikingly original approach to the spatial parameters of Greek tragedy as performed in the open-air theater of Dionysus. Emphasizing the interplay between natural place and fictional setting, between the world visible to the audience and that evoked by individual tragedies, Rehm argues for an ecology of the ancient theater, one that "nests" fifth-century theatrical space within other significant social, political, and religious spaces of Athens. Drawing on the work of James J. Gibson, Kurt Lewin, and Michel Foucault, Rehm crosses a range of disciplines--classics, theater studies, cognitive psychology, archaeology and architectural history, cultural studies, and performance theory--to analyze the phenomenology of space and its transformations in the plays of Aeschylus, Sophocles, and Euripides. His discussion of Athenian theatrical and spatial practice challenges the contemporary view that space represents a "text" to be read, or constitutes a site of structural dualities (e.g., outside-inside, public-private, nature-culture). Chapters on specific tragedies explore the spatial dynamics of homecoming ("space for returns"); the opposed constraints of exile ("eremetic space" devoid of normal community); the power of bodies in extremis to transform their theatrical environment ("space and the body"); the portrayal of characters on the margin ("space and the other"); and the tragic interactions of space and temporality ("space, time, and memory"). An appendix surveys pre-Socratic thought on space and motion, related ideas of Plato and Aristotle, and, as pertinent, later views on space developed by Newton, Leibniz, Descartes, Kant, and Einstein. Eloquently written and with Greek texts deftly translated, this book yields rich new insights into our oldest surviving drama.

Fifth Honeymoon Torbjørn Rødland 2018-10-02 This publication accompanies Torbjørn Rødland's exhibition "Fifth Honeymoon," produced as a collaboration between Bergen Kunsthall; Bonniers Konsthall, Stockholm; and Helsinki's Museum of Contemporary Art, Kiasma; and featuring thirty new photographs and a new video work, his first in eleven years. Photographed exclusively on analog material, often in staged studio settings, Rødland's works hold a unique place in the treatment of images by artists today. His photographs have an almost uncomfortable ambiguity, fully aware as they are of the power of images and the slippery comfort of normative formats, while simultaneously showing a sincere desire for the emotions and the magic that are at play in the world. His photographs manifest what we experience as beautiful, and sometimes repulsive, but not in any conventional way. Rødland makes use of these aesthetic categories and the forms in which they are expressed, and confronts them, complicates them, and exaggerates them with contradictory concepts, such as the uncanny, the nasty, the messy. Fifth Honeymoon features all of the new works in Torbjørn Rødland's eponymous exhibition, as well as newly commissioned essays by the American writer and cultural theorist Sianne Ngai and artist colleague Matias Faldbakken. Copublished with Bergen Kunsthall; Bonniers Konsthall, Stockholm; and Kiasma Museum of Contemporary Art, Helsinki Contributors Matias Faldbakken, Sianne Ngai

Ethan Stowell's New Italian Kitchen Ethan Stowell 2010-09-21 Welcome to Ethan Stowell's New Italian Kitchen--not so much a place as a philosophy. Here food isn't formal or fussy, just focused, with recipes that honor Italian tradition while celebrating the best ingredients the Pacific Northwest has to offer. We're talking about a generous bowl of steaming handmade pasta--served with two forks for you and a friend. Or perhaps an impeccably fresh crudo, crunchy cucumber and tangy radish accenting impossibly sweet spot prawns. Next up are the jewel tones of a beet salad with lush, homemade ricotta, or maybe a tangle of white beans and clams spiked with Goat Horn pepper--finished off with a whole roasted fish that begs to be sucked off the bones. Oh, some cheese, a gooseberry compote complementing your Robiola, or the bittersweet surprise of Campari sorbet. This layered approach is a hallmark of Ethan's restaurants, and in his New Italian Kitchen, he offers home cooks a tantalizing roadmap for re-creating this style of eating. Prepare a feast simply by combining the lighter dishes found in “Nibbles and Bits”--from Sardine Crudo with Celery Hearts, Pine Nuts, and Lemon to Crispy Young Favas with Green Garlic Mayonnaise--or adding recipes with complex flavors for a more sophisticated meal. Try the luscious Corn and Chanterelle Soup from “The Measure of a Cook;” or the Cavatelli with Cuttlefish, Spring Onion, and Lemon from “Wheat’s Highest Calling.” Up the ante with a stunning Duck Leg Farrotto with Pearl Onions and Bloomsdale Spinach from “Starches to Grow On,” or choose one of the “Beasties of the Land,” like Skillet-Roasted Rabbit with Pancetta-Basted Fingerlings. Each combination will nudge you and your guests in new, unexpected, and unforgettable directions. Every page of Ethan Stowell’s New Italian Kitchen captures the enthusiasm, humor, and imagination that make cooking one of life’s best and most satisfying adventures. It’s got to be good--but it’s also got to be fun.

Aeschylean Tragedy Alan H. Sommerstein 2013-10-16 Aeschylus was the dramatist who made Athenian tragedy one of the world's great art-forms. In this completely revised and updated edition of his book Alan H. Sommerstein, analysing the seven extant plays of the Aeschylean corpus (one of them probably in fact the work of another author) and utilising the knowledge we have of the seventy or more whose scripts have not survived, explores Aeschylus' poetic, dramatic, theatrical and musical techniques, his social, political and religious ideas, and the significance of his drama for our own day. Special attention is paid to the "Oresteia" trilogy, and the other surviving plays are viewed against the background of the four-play productions of which they formed part. There are chapters on Aeschylus' theatre, on his satyr-dramas, and on his dramatisations of Homer's "Iliad" and "Odyssey", and a detailed chapter-by-chapter guide to further reading. No knowledge of Greek is assumed, and all texts are quoted in translation.

On Unbelievable Tales Jacob Stern 1996-01-01 On Unbelievable Tales is an early effort to rationalize oft-told tales of the heroes and monstrous creatures of Greek mythology. Palaephatus, a contemporary of Aristotle, sought to reinforce belief in the historicity of ancient heroes by tracing the evolution of "actual" events into legendary and mythological accounts. This dual-language edition features introduction with in-depth examination of the work and history of Palaephatus, the first available English translation, notes on the ancient sources for over 40 tales, and notes and Greek text from the Teubner 1902 edition.

Disabling Obesity Paolo Capodaglio 2013-04-04 Obesity is currently regarded as one of the major health challenges of the developed world. Excess body weight is an important risk factor for morbidity and mortality from cardiovascular diseases, diabetes, cancer, musculoskeletal disorders and even psychiatric problems and is estimated to cause nearly 3 million deaths per year worldwide. Obesity is not necessarily associated with comorbidities: there are indeed metabolically healthy obese individuals. Thus, we need to consider individuals presenting simple with obesity separately from those at risk of developing or who have already developed complex clinical states potentially leading to disability. Comorbidities can tip the balance of independence in patients who already have functional limitations mainly due to the excess of mass itself or who develop conditions such as diabetes, cardiovascular conditions, non-alcoholic fatty liver disease, where an abnormal metabolism of adipose tissue prevails. Morbid obesity with comorbidities leading to disability represents a real social and economic burden for National Health Systems worldwide. The presence of multiple and associated comorbidities often represents an obstacle to being admitted to hospitals for the treatment of metabolic diseases. On the other hand, clinical units with optimal standards for the treatment of pathological conditions in normal-weight patients are often structurally and technologically inadequate for the care of patients with extreme obesity. The aim of this book is to focus on the pathophysiological and rehabilitative aspects of disabling obesity, highlighting multidisciplinary rehabilitation interventions as key to counteracting the disabling aspects of complicated obesity.

The Political Background to Aeschylean Tragedy A.J. Podlecki 1999-02-25 The author examines the seven extant plays of Aeschylus against the political and military background of his time. As one who himself fought at the battle of Salamis, Aeschylus was profoundly concerned with military events (the messenger speech in Persians) and political changes (Eumenides). In this volume, Podlecki adopted a 'historicist' approach to tragedy, adding a new dimension to the understanding of Aeschylus' poetry.

Deliciae Fictiles V. Networks and Workshops Patricia Lufo 2019-09-16 Temples are the most prestigious buildings in the urban landscape of ancient Italy, emerging within a network of centres of the then-known Mediterranean world. Notwithstanding the fragmentary condition of the buildings[] remains, these monuments [] and especially their richly decorated roofs [] are crucial sources of information on the constitution of political, social and craft identities, acting as agents in displaying the meaning of images. The subject of this volume is thematic and includes material from the Eastern Mediterranean (including Greece and Turkey). Contributors discuss the network between patron elites and specialized craft communities that were responsible for the sophisticated terracotta decoration of temples in Italy between 600 and 100 BC, focusing on the mobility of craft people and craft traditions and techniques, asking how

images, iconographies, practices and materials can be used to explain the organization of ancient production, distribution and consumption. Special attention has been given to relations with the Eastern Mediterranean (Greece and Anatolia). Investigating craft communities, workshop organizations and networks has never been thoroughly undertaken for this period and region, nor for this exceptionally rich category of materials, or for the craftspeople producing the architectural terracottas. Papers in this volume aim to improve our understanding of roof production and construction in this period, to reveal relationships between main production centres, and to study the possible influences of immigrant craftspeople.

Pure Anne Geddes 2008 Anne Geddes's "technically and aesthetically exquisite photographs [are] imbued with grace and hope." --Library Journal Now Anne Geddes's critically acclaimed Pure is available in a new size. Similar in scale to the reissues of Anne Geddes' Down in the Garden and Until Now, Pure is now available in three formats--the original hard- and soft-cover editions and this elegantly giftable 5" x 6" trim size. Four years in the making, Anne Geddes' Pure offers breathtaking images that intimately evoke the wonder of the first precious days and weeks of life. With eyes tightly shut, in wrinkle new skin, and unaffected by the world around them, newborns are captured in their purest form as Geddes' explains, "to emphasize the fact that they are vulnerable, fragile, and very precious human beings." "Real women in the full bloom of pregnancy radiate serenity and promise. Mothers enfold babies in their arms--highlighting the beautiful bond between them and revealing our shared humanity."

Manhattan Marxism Rainer Ganahl 2018 The artist Rainer Ganahl has been creatively adapting the writings of Karl Marx to his own work since the 1990s. The German philosopher's ideas have galvanized projects such as Ganahl's irreverent fashion show Commes Des Marxists, a series of obscene food sculptures inspired by the "credit crunch" of 2008, and a Karl Marx fire extinguisher, which allows the thinker's wisdom to be sprayed onto any conflict. There has never been a more fitting time, however, for the release of this book, which appears on the 10th anniversary of the global financial crisis, and 200 years after Marx's birth. In more than 700 pages, Manhattan Marxism assembles essays, photos, and other documentation from dozens of Ganahl's Marx-themed projects from the past decade. Contributors Arthur Fink, Rainer Ganahl, Liam Gillick, Johan Hartle, Steve Lyons, Antonio Negri, Gayatri Chakravorty Spivak

The Best Ears in the World Claire Llewellyn 2002 A young rabbit hates his long ears, but when his father explains about sounds and the importance of hearing, he soon changes his mind. As they roam around their woodland home, they observe, ask questions and comment on all the different sounds they hear; from the beautiful sound of the blackbird singing to the farmer's noisy tractor.

Cosmic Game, The Stanislav Grof In this, his culminating work, the leading international figure in consciousness research masterfully synthesizes his vast findings, drawing not only upon psychedelic therapy and Holotropic Breathwork, but also from literature, cross-cultural studies, ancient mystical sources and psychological data, resulting in a profound consolidation and articulation of what is now known about nonordinary states of consciousness. The Cosmic Game discusses the broadest philosophical, metaphysical and spiritual insights gleaned in Grof's research concerning human nature and reality, addressing the most fundamental questions human beings have asked about the nature of existence since time immemorial. Insights from research into nonordinary states of consciousness portray existence as an astonishing play of the cosmic creative principle that transcends time, space, linear causality, and polarities of every kind and suggest an identity of the individual psyche in its furthest reaches with the universal creative principle and the totality of existence. This identity of the human being with the Divine is the ultimate secret that lies at the core of all great spiritual traditions. "What moves this book into the status of a classic is that it is in substantial agreement with the world's great wisdom and spiritual traditions. This modern corroboration of the perennial philosophy is a stunning achievement and deserves publication to the widest audiences." -- Ken Wilber, author of Up from Eden: A Transpersonal View of Human Evoution and The Atman Project: A Transpersonal View of Human Development "The Cosmic Game is the latest and best of Stanislav Grof's extraordinary contributions to our understanding of human consciousness. This book provides a coherent picture of how individual experience fits into universal patterns of consciousness" -- Frances Vaughan, author of Shadows of the Sacred: Seeing through Spiritual Illusions "Perhaps the most important of all his works, representing as it does an integration of the most profound of his clients' experiences and demonstrating a remarkable convergence with the deepest spiritual experiences reported across centuries and cultures. This convergence is a finding of the greatest significance." -- Roger Walsh, author of The Spirit of Shamanism "Grof is the world's leading authority on the deep exploration of the mind and soul... This is a wonderful gift!" -- Charles Tart, author of States of Consciousness and Psi: Scientific Studies of the Psychic Realm Stanislav Grof, MD, is a psychiatrist with more than fifty years of experience in research of nonordinary states of consciousness. He has been Principal Investigator in a psychedelic research program at the Psychiatric Research Institute in Prague, Czechoslovakia; Chief of Psychiatric Research at the Maryland Psychiatric Research Center; Assistant Professor of Psychiatry at the Johns Hopkins University; and Scholar-in-Residence at the Esalen Institute. He is currently Professor of Psychology at the California Institute of Integral Studies, conducts professional training programs in holotropic breathwork, and gives lectures and seminars worldwide. He is one of the founders and chief theoreticians of transpersonal psychology and the founding president of the International Transpersonal Association (ITA). In 2007, he was granted the prestigious Vision 97 award from the Vaclav and Dagmar Havel Foundation in Prague. Water, Birth and Sexuality Michel Odent 2020-12-17 'After the historic student revolt in France a period of audacious creativity resulted. The watchdog was: "It is forbidden to forbid". We took advantage of this transient cultural folly to do what would have been impossible ten years before or ten years after, introducing in the maternity unit of a state hospital an inflatable outdoor pool as a way to replace drugs during birth.' – from the Introduction In this groundbreaking book, Dr Odent takes as his starting point the world-famous work on childbirth at Pithiviers, where he first noticed the strong attraction to water that many women have during labour. As well as discovering the practical advantages of water during the birthing process, he began to consider the meaning and importance of water as a symbol. Water, Birth and Sexuality examines the living power of water and its erotic connotations. Odent evaluates what water meant in different cultures throughout history, through myths and legends, and what it means for us today: from an advertiser's tool to a metaphor for aspects of the psyche. He also studies humanity's special relationship to dolphins, and the related 'aquatic ape' theory. A practical section on the use of water during birth and in various therapies, particularly sex therapy, is included. This edition of this classic work features a new Introduction.

A Walk Across the Sun Corban Addison 2013-09-03 Corban Addison's debut novel, A Walk Across the Sun, was first published, called "pulse-revving with a serious message," by O, the Oprah magazine. John Grisham said, "Addison has written a novel that is beautiful in its story and also important in its message. A Walk Across The Sun deserves a wide audience." A trained lawyer committed to the cause of advancing international human rights and abolishing modern slavery, Addison has written a novel that enlightens while it entertains; A Walk Across the Sun brings together three of Addison's great passions--storytelling, human rights, and the world's many cultures. Ahalya Ghai and her younger sister Sita are as close as sisters can be. But when a tsunami rips through their coastal village, their home is swept away, and the sisters are the sole survivors of their family. Destitute, their only hope is to find refuge at a convent many miles away. A driver agrees to take them. But the moment they get into that car their fate is sealed. The two sisters--confused, alone, totally reliant on each other--are sold. On the other side of the world, Washington lawyer Thomas Clarke is struggling to cope after the death of his baby daughter and the collapse of his marriage. He takes a sabbatical from his high-pressure job and accepts a position with the Bombay branch of an international anti-trafficking group. Thomas is now on a desperate path to try and save not only himself and his marriage, but also the lives of the two sisters. From the Trade Paperback edition.

Studies in Aeschylus R. P. Winnington-Ingram 1983-09-29 Professor Winnington-Ingram's reputation as an authority on

Greek drama is based on a lifetime's careful scholarship. In 1980 the Press published Professor Winnington-Ingram's book on Sophocles and in 1983 he followed it up with some studies on Aeschylus. This book explores the problems in Aeschylus' earlier plays: Persae, Septem contra Thebas and the Daniad trilogy. There is also an emphasis on different aspects of the Oresteia and finally, an examination of the peculiar problems in Prometheus Bound. A view of Aeschylean tragedy emerges - and of the poet's contribution to the development of Greek religious thought. Students of Greek drama will welcome this collection. Greek in the body of the text is translated, so that the book will be accessible to those studying Greek literature in translation and the literature and drama of other cultures.

An Autobiographical Account by a Leading Sardinian Republican Politician of Resistance to Fascism in Sardinia from 1918-1930 Emilio Lussu 1992 Readers seeking to understand the resurgence of fascism in the world today should profit from Emilio Lussu's account. This is an autobiography through which the reader encounters men and women caught up in the brutalizing of a State whose opponents suffer the consequences of holding to principle. In Sardinia in the 1920's a bourgeois class fell easy prey to fascism. Lussu's personal, humorous, warm, perceptive, ironic and telling account of his own humiliation and punishment, affords the reader the unique perspective of a man at the centre of opposition to a movement which would eventually plunge Europe into war.

Fossils 2021-09-28 The clearest and sharpest recognition guide to over 500 invertebrate, vertebrate, and plant fossils from around the world. This comprehensive pocket guide is the perfect introduction to finding, identifying, and collecting fossils. This handbook cuts through the complicated identification process with expertly written

and thoroughly vetted text that features precise description, enabling you to recognize a species instantly. Over 1,000 photographs, with illuminating annotations, help you to pick out a fossil's chief characteristics and distinguishing features, while a colour illustration shows the fossil as a living plant or animal. The detailed introduction explains what a fossil is and how they are classified. Start building your own collection with advice on where to look for fossils, what tools and safety equipment are needed for collecting, and how best to organize a fossil collection. To help you in the initial stages of identification, this book provides a visual identification key that makes it easy to recognize a fossil and place it in its correct group. Finally, a concise glossary gives instant understanding of technical and scientific terms.

Springhill Mina Lenox-Conyngham 2005 Long-awaited, this reprint of the history of one of Ulster's most enchanting houses, Springhill near Moneymore, County Londonderry, will be an invaluable companion to those interested in the history of Mid-Ulster, the Plantation and Ulster families with Scottish origins. Now owned and managed by the National Trust, the house and grounds retain a unique and delightful atmosphere. It was home to ten generations of the Conyngham (later the Lenox-Conyngham) family, and their story is richly documented from the family's own papers and told in a colourful narrative by the last chatelaine of the house, Mina. She was a formidable character in her own right and her tale gives a period insight into the self-confidence of the rural gentry class and their loyalties in early 20th-century Ulster. This new volume published by the Ulster Historical Foundation provides not only the original text but many new and excellent illustrations as well as a corrected family tree. These additions give a marvellously enhanced picture of this family home with its intact collections and wonderful setting close to the shores of Lough Neagh.
