KINDRED - St. Louis Public Schools

Drowning! I reacted to the child in trouble. Later I could ask questions, try to find out where I was, what had happened. Now I went to help the child. I ran down to the river, waded into the water fully clothed, and swam quickly to the child. He was unconscious by the time I reached him—a small red-haired boy floating, face down.

Observational methods

the class team is exceptionally well-organised, there is a danger of drowning in post-it notes. Checklists Many education settings use checklists. A checklist, sometimes called a ticklist or tick chart, is an inventory of behaviors or skills that the observer marks or checks if the pupil is seen to demonstrate them.
