### Why We Make Things and Why

It Matters Peter Korn

2015-03-31 In this moving account, Peter Korn explores the nature and rewards of creative practice. We follow his search for meaning as an Ivy-educated child of the middle class who finds employment as a novice carpenter on Nantucket, transitions to self-employment as a designer/maker of fine furniture, takes a turn at teaching and administration at Colorado's Anderson Ranch Arts Center, and finally finds a school in

Maine: the Center for Furniture Craftsmanship, an internationally respected, non-profit institution. Furniture making, practiced as a craft in the twenty-first century, is a decidedly marginal occupation. Yet the view from the periphery can be illuminating. For Korn, the challenging work of bringing something new and meaningful into the world through one's own volition - whether in the arts, the kitchen, or the marketplace - is exactly what generates the authenticity, meaning, and fulfillment for which many of us yearn. This is not a "how-to" book in any sense. Korn wants to get at the why of craft in particular, and

the satisfactions of creative work in general, to understand their essential nature. How does the making of objects shape our identities? How do the products of creative work inform society? In short, what does the process of making things reveal to us about ourselves? Korn draws on four decades of hands-on experience to answer these questions eloquently, and often poignantly, in this personal, introspective, and revealing book.

**The Collector of Lives: Giorgio Vasari and the Invention of Art**  
Noah Charney 2017-10-03

“Readers curious about the making of Renaissance art, its cast of characters and political intrigue, will find much to relish in these pages.” –Wall Street Journal

Giorgio Vasari (1511–1574) was a man of many talents—a sculptor, painter, architect, writer, and scholar—but he is best known for *Lives of the Artists*, which singlehandedly established the canon of Italian Renaissance art. Before Vasari’s extraordinary book, art was considered a technical skill, and

artists were mere decorators and craftsmen. It was through Vasari’s visionary writings that Raphael, Leonardo, and Michelangelo came to be regarded as great masters of life as well as art, their creative genius celebrated as a divine gift. Lauded by Sarah Bakewell as “insightful, gripping, and thoroughly enjoyable,” *The Collector of Lives* reveals how one Renaissance scholar completely redefined how we look at art.

The Birth of Venus Sarah Dunant 2004-11-30 Alessandra Cecchi is not quite fifteen when her father, a prosperous cloth merchant, brings a young painter back from northern

Europe to decorate the chapel walls in the family’s Florentine palazzo. A child of the Renaissance, with a precocious mind and a talent for drawing, Alessandra is intoxicated by the painter’s abilities. But their burgeoning relationship is interrupted when Alessandra’s parents arrange her marriage to a wealthy, much older man. Meanwhile, Florence is changing, increasingly subject to the growing suppression imposed by the fundamentalist monk Savonarola, who is seizing religious and political control. Alessandra and her native city are caught between the Medici state, with its love of luxury, learning, and dazzling

art, and the hellfire preaching and increasing violence of Savonarola's reactionary followers. Played out against this turbulent backdrop, Alessandra's married life is a misery, except for the surprising freedom it allows her to pursue her powerful attraction to the young painter and his art. The Birth of Venus is a tour de force, the first historical novel from one of Britain's most innovative writers of literary suspense. It brings alive the history of Florence at its most dramatic period, telling a compulsively absorbing story of love, art, religion, and power through the passionate voice of Alessandra, a heroine with the

same vibrancy of spirit as her beloved city.
