Essential Art Deco Ghislaine Wood 2003 Essential Art Deco captures the essence of the style which swept across the globe in the 1920s and 1930s, altering the skyline of cities from Shanghai to Rio, and adding an exotic vibrant edge to everything from cinema and fashion to ocean lines and automobiles. Beautifully illustrated throughout, the book explores the extraordinary visual language of the style. Skillful juxtaposition of source material and iconic Deco pieces shows how designers borrowed from the exotic cultures of Ancient Egypt, Meso-America, the oriental East and Africa and from the man-made world of skyscrapers and machines, developing in the process a new and highly distinctive iconography. Images inspired by the natural world of plants and animals, sunbursts and fountains, contrast with the geometric forms of avant-garde painting and design, culminating eventually in the symbolic idiom of streamlining. Deeply eclectic and highly decorative, Art Deco was all about fantasy, fun and glamour - themes that are celebrated in this attractive book and which still strike a popular chord today.

A Taste of Pesach 2014 The authors of Yeshiva Me'on HaTorah's wildly popular A Taste of Pesach mailings have put together a complete collection of kosher for Pesach family favorites in a magnificently presented, down-to-earth compilation you will find yourself referring to again and again. The stunning, full-color photography and clear, easy-to-read layout are a treat for the eyes; while delicious, mouthwatering recipes are a treat for the palate. Using familiar ingredients, A Taste of Pesach offers fabulous, easy-to-prepare recipes and gourmet presentations that family and friends will find irresistible on Pesach and year round. A Taste of Pesach incorporates timeless classics that have been used for generations and modern cuisine to present a cookbook that appeals to young and old alike. These are recipes that you will love to cook, serve and enjoy year after year.

Catfantastic V Andre Norton 1999 An anthology of fantasy tales featuring feline heroes and heroines includes twenty-four new stories by such authors as Mercedes Lackey, David Drake, Barry Longyear, Lawrence Watt-Evans, and Andre Norton

Robert Ludlum's (TM) The Utopia Experiment Kyle Mills 2013-03-26 With U.S. intelligence agencies wracked by internal power struggles and paralyzed by bureaucracy, the president has been forced to establish his own clandestine group--Covert-One. It's activated only as a last resort, when the threat is on a global scale and time is running out. THE UTOPIA EXPERIMENT When Dresner Industries unveils the Merge, a device that is destined to revolutionize the world and make the personal computer and smartphone obsolete, Covert-One operative Colonel Jon Smith is assigned to assess its military potential. He discovers that enhanced vision, real-time battlefield displays, unbreakable security, and near-perfect marksmanship are only the beginning of a technology that will change the face of warfare forever--and one that must be kept out of the hands of America's enemies at all costs. Meanwhile, in the mountains of Afghanistan, CIA operative Randi Russell encounters an entire village of murdered Afghans--all equipped with enhanced Merge technology that even the Agency didn't know existed. As Smith and Russell delve into the circumstances surrounding the Afghans' deaths, they're quickly blocked by someone who seems to have access to the highest levels of the military--a person that even the president knows nothing about. Is the Merge really as secure as its creator claims? And what secrets about its development is the Pentagon so desperate to hide? Smith and Russell are determined to learn the truth. But they may pay for it with their lives . . .

Fangtales Berni Stevens 2011-10-01 A collection of 18 short vampire tales.

308 Circuits Jan Buiting 2003 This is the ninth in the 300 series of circuit design books, again contains a wide range of circuits, tips and design ideas. The book has been divided into sections, making it easy to find related subjects in a single category. The book not only details DIY electronic circuits for home construction but also inspiring ideas for projects you may want to design from the ground up. Because software in general and microcontroller programming techniques in particular have become key aspects of modern electronics, a number of items in this book deal with these subjects only. Like its predecessors in the 300 series, "308 Circuits" covers the following disciplines and interest fields of modern electronics: test and measurement, radio and television, power supplies and battery chargers, general interest, computers and microprocessors, circuit ideas and audio and hi-fi.

The Plunge Fidelia Agwumezie 2007-05 Nma, a young Nigerian woman, comes to the United States to join her husband after several years of pain and suffering while she waited patiently in her home country for the day shead set eyes on her loverthat magic moment that would heal the wounds of her heart. With a heart brimming with hope and the most pristine of intentions of starting a new family with the man shead fallen in love with, her expectations come crashing down around her in a pile of deceit and tragedy. Despite her struggles, Nma will emerge a success for her resilience.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Top 10 Phuket DK Travel 2014-10-01 DK Eyewitness Travel Guide: Top 10 Phuket will lead you straight to the very best Phuket has to offer. Whether you're looking for the things not to miss at the Top 10 sights or want to find the best nightspots, this guide is the perfect companion. Letter by Letter not only introduces the Arabic [arabi] alphabet, it also introduces a working arabi vocabulary. So for every new letter the student learns, he simultaneously learns a new word or two. We have five unique ways of teaching the alphabet that makes our program different from anything you may have ever experienced before.

ASPEN Parenteral Nutrition Handbook, Third Edition Phil Ayers 2020-02-28

The Book of L. G. Rozenberg 2012-12-06 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been cus tomarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the in terest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

A Secondhand Lie Pamela Crane 2018-04-01 Sometimes you know things you're not supposed to know. Things that you can never un-know. Things that will change the course of your life...and the fate of the ones you love. I found her in our living room, bleeding and close to death, but alive. Barely. Until morning stole her last breath. The media called her killer the "Triangle Terror" ... and then forgot about her. But I never forgot—my murdered sister, and an investigation that led to my own resurrection from the dead. Twenty-two years ago, on a cold February night, Landon Worthington lost his father for the last time. After an armed robbery gone wrong, evidence and witness testimony pointed a shaky finger at Dan Worthington—deadbeat dad and alcoholic husband. But before the dust could settle over the conviction, Landon’s preteen sister, Alexis, is murdered in their home, plunging Landon’s life into further despair. Two decades and a cold case later, Landon is dogged by guilt over their estranged relationship and decides to confront his incarcerated father about what really happened the night of the robbery. But the years of lies are hard to unravel. And the biggest question of all haunts him: How does everything tie into his sister's murder? And so begins Landon’s journey to piece together the puzzle of secrets, lies, and truths that can free his father, avenge his sister, and perhaps save himself. A short story mystery perfect for fans of Robert Dugoni’s Third Watch and Dean Koontz’s The Neighbor. Read as a standalone or as the companion book to A Secondhand Life.

365 Bible Stories Pegasus 2013-12-17 The 365-series books are a unique product created keeping in mind the number of days we have in a year. Each book has 365 stories that will encourage children to read at least one story each day, inculcating in them the good habit of book reading.
