Sadie's Highlander Maeve Greyson 2017-09-12 The Highland Protector series brings to life four mouthwatering Celtic brothers in twenty-first-century North Carolina—where the lasses are anything but tamed. Highland warrior Alec MacDara and his brothers traveled forward in time to protect the sacred Heartstone. Their cover? Owners and operators of a theme park called Highland Life and Legends. As the chairman, Alec has been fending off requests to film at the breathtaking property. It's only because of the charming correspondence from an enterprising production assistant that he agrees to a meeting at all. That's when Alec meets a woman whose lush curves make him forget, for the first time, all about tenth-century Scotland. A lowly assistant for her sister's motion picture company, wannabe screenwriter Sadie Williams is shocked when Alec agrees to let them film at the park upon one condition: that she report to him daily. Sadie's sister always told her that their parents only adopted her because they felt sorry for the ugly little stray. But Alec looks at Sadie like she's the most tempting creature in the world. And with his gleaming, musclebound body stripped down to nothing but a hip-hugging kilt and boots, Alec clearly knows a little something about temptation. Praise for Sadie's Highlander "Readers will delight in the fiery passion that ignites between characters and they will relate to the varying degrees of family dynamics. Animals in Young Adult Fiction Walter Hogan 2009-07-01 Of the many themes occurring in young adult literature, one that bears more extensive exploration is the adolescent-animal connection. Although substantial critical commentary has addressed children's animal stories and animals in adult fiction, very few studies have been devoted to adolescent-animal encounters. In *Animals in Young Adult Fiction*, Walter Hogan examines several hundred novels and stories to explore the ways in which animals are represented in these works. In addition to providing an historical survey, Hogan looks at both realistic fiction and speculative works, including fantasy, supernatural, horror, and science fiction. Hogan reviews stories that feature wild animal encounters, stories centered on relationships with horses, dogs, and other working and performing animals, and those featuring relationships with pets. Drawing upon established scholarship, this book examines human-animal relationships from multiple angles, making it an invaluable resource for librarians, teachers, and students of children's and young adult literature.

Still Life Elisha Cohn 2015-12-01 Still Life: Suspended Development in the Victorian Novel rethinks the nineteenth-century aesthetics of agency through the Victorian novel's fascination with states of reverie, trance, and sleep. These states challenge contemporary scientific and philosophical accounts of the perfectibility of the self, which privileged reflective self-awareness. In dialogue with the field of literature and science studies and affect studies, this book shows how Victorian writers used narrative form to respond to the analytical practices and knowledge production of those other disciplines. Drawing upon canonical texts--by Charlotte Brontë, George Eliot, George Meredith, and Thomas Hardy--Still Life contends that depictions of non-purposive perceptual experience suspend the processes of self-cultivation (Bildung) central to Victorian aesthetics, science, psychology, and political theory, as well as most critical accounts of the novel form. Departing from the values of individual cultivation and moral revelation associated with the genre, these writers offer an affective framework for understanding the subtly non-instrumental powers of narrative. Victorian novels ostensibly working within the parameters of the Bildungsroman are suspended by moments of "still life": a decentered lyricism associated with states of diminished consciousness. They use this style to narrate what should be unnarratable: experiences not dependent on reflective consciousness, which express a distinctive ambivalence toward dominant developmental frameworks of individual self-culture.

The Ruling Passion Christopher Lane 1995 In *The Ruling Passion*, Christopher Lane examines the relationship between masculinity, homosexual desire, and empire in British colonialist and imperialist fictions at the turn of the twentieth century. Questioning the popular assumption that Britain's empire functioned with symbolic efficiency on sublimated desire, this book presents a counterhistory of the empire's many layers of conflict and ambivalence. Through attentive readings of sexual and political allegory in the work of Kipling, Forster, James, Beerbohm, Firbank, and others—and deft use of psychoanalytic theory—*The Ruling Passion* interprets turbulent scenes of masculine identification and pleasure, power and mastery, intimacy and antagonism. By foregrounding the shattering effects of male homosexuality and interracial desire, and by insisting on the centrality of unconscious fantasy and the death drive, *The Ruling Passion* examines the startling recurrence of colonial failure in narratives of symbolic doubt and ontological crisis. Lane argues compellingly that Britain can progress culturally and politically only when it has relinquished its residual fantasies of global mastery.
